

Miguel Flores

Director, Water Quality Protection Division

Miguel Flores is the Director, Water Quality Protection Division with the U.S. Environmental Protection Agency (EPA) Region 6 Dallas, Texas. Mr. Flores is responsible for the water quality and safe drinking water programs in the region as well as water infrastructure along the U.S.-Mexico border. He serves as EPA's representative on the Coastal, Wetlands, Planning, Protection and Restoration Act Task Force.

Prior to this appointment, Mr. Flores spent 18 years with the Air Resources Division of the National Park Service in Denver, Colorado, where he was instrumental in establishing the Park Service's nationwide air pollution monitoring network. He also served as Special Assistant involved in various national and international air pollution issues affecting national parks. Before going to the Park Service Mr. Flores served as a statistician and air quality specialist with EPA's Region 6 Office.

Mr. Flores received his B.S. degree in mathematics from Texas Tech University, his M.S. in mathematical statistics from Southern Methodist University, and subsequently has taken graduate courses in Environmental Sciences and Computer Science at the University of Texas at Dallas. He is a graduate of Harvard University Kennedy School of Government Senior Executive Fellows Program and a member of Senior Executive Service. Mr. Flores served as a member of the U.S. armed forces and has taught mathematics at junior colleges in Texas.

Mr. Flores and his wife Barbara have three grown children, and he is a native of Laredo, Texas.

Current as of September 2004
